

Mindmaps

What is a mind map?

- Organisational thinking.
- Map out your thinking.
- Reflects what goes on in your brain.

Step 1

Create your central idea.

Use images for this as well as words

Step 2

- Add ideas and thoughts.
- Curves not straight lines.
- Create excitement for your eyes – engage the brain better.
- Thicker lines for the most important points.

Step 3

- Colours – you think in colour.
- Divide the sections/topics in to colours.
- Hitler's rise to power
- Vietnam war
- First world war

Step 4

- Add words.
- Single words – provide power and flexibility.
- Include further words.

Step 5

- Pictures can paint a thousand words.
- Include pictures at the end of your branches that will jog your memory.

Step 6

- Connections
- Are there any of your branches that link?
- Your brain works by association.

How to Create A Mindmap

Every node on a mindmap could be its own mindmap

Go Deeper

Share it

When you finish, share it with your Study Buddies

This will help you get a fresh perspective

Let your ideas explode

Tidy up later

Don't focus on perfection

Nobody's Perfect

Use Colour

Group you ideas and thoughts by using colour

So your Mindmaps shouldn't be either

Your brain isn't confined to one page

Break the 'on the page' mentality

Don't take sides

Embrace both sides of your brain

The Creative

The Analytical
