## **Year 9 Foundation SUMMER REVISION**

|    | Paper 3 - Calculator              |   | RAG | Video clips |
|----|-----------------------------------|---|-----|-------------|
| 1  | Place values                      | N |     |             |
| 2  | Solving equations                 | Α |     |             |
| 3  | Lines of symmetry                 | G |     |             |
| 4  | Length                            | G |     |             |
| 5  | Shading fractions and percentages | N |     |             |
| 6  | Money problem                     | Ν |     |             |
| 7  | algebraic descriptions            | Α |     |             |
| 8  | Money problem                     | Ν |     |             |
| 9  | Probability                       | D |     |             |
| 10 | Scale drawing                     | G |     |             |
| 11 | Capacity Problem                  | G |     |             |
| 12 | Proportion and profit /loss       | R |     |             |
| 13 | Speed, ditance, time              | G |     |             |
| 14 | Area of a triangle                | G |     |             |
| 15 | Number problem use algebra        | Ν |     |             |
| 16 | Accurate drawings, constructions  | G |     |             |
| 17 | Simplifying expressions           | Α |     |             |
| 18 | Dates - factors                   | Ν |     |             |
| 19 | Pie charts                        | D |     |             |
| 20 | Probability                       | D |     |             |
| 21 | Changing the subject              | Α |     |             |
| 22 | Sequences and nth terms           | Α |     |             |
| 23 | Venn diagrams                     | D |     |             |
| 24 | Factors using algebra             | N |     |             |
| 25 | Similar shapes                    | G |     |             |
| 26 | Compound and simple interest      | Ν |     |             |
| 27 | Gradients and parallel lines      | Α |     |             |
| 28 | Reverse percentages               | N |     |             |
| 29 | Nth term and prime numbers        | Α |     |             |
| 30 | Simple Vectors                    | G |     |             |
